

NORTH CAROLINA MUSEUM OF ART

Visiting the Museum Park

A Suggested Visual Schedule

1

Let's head to the Museum Park. The Park is over 160 acres in size, so we might not get to explore it all, but we will have fun!

2

First, we will visit the Ellipse and sit under a tree either on the grass or on the bench. This is a good place to eat a snack.

3

Then we will walk to the Discovery Garden to have fun exploring. We will look at the plants and the colorful sculpture.

4

Then we can walk past the amphitheater to the sandbox. The sandbox is in the shape of a C and part of the *PICTURE THIS* letters. Can you spot the other letters?

5

If we like to walk, we can head over to the Pond.

6

Then it will be time to leave. We had a great day at the Museum Park!
